

# SVG Content in Snaking Columns

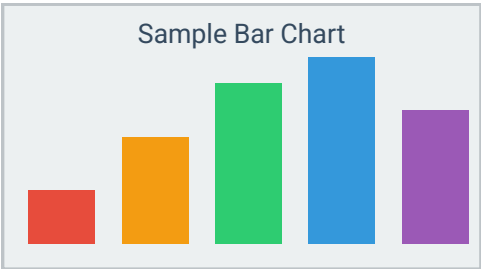

*This example demonstrates how SVG graphics render within snaking columns.*

## Section 1: Introduction

Below is an SVG graphic that fits within the column width.

## Section 2: Chart Placeholder

## Section 3: Icon Row

## Section 4: Detailed Content

Text line 1: Standard content that flows normally.  
Text line 2: Standard content that flows normally.  
Text line 3: Standard content that flows normally.  
Text line 4: Standard content that flows normally.  
Text line 5: Standard content that flows normally.  
Text line 6: Standard content that flows normally.  
Text line 7: Standard content that flows normally.  
Text line 8: Standard content that flows normally.  
Text line 9: Standard content that flows normally.  
Text line 10: Standard content that flows normally.  
Text line 11: Standard content that flows normally.  
Text line 12: Standard content that flows normally.  
Text line 13: Standard content that flows normally.  
Text line 14: Standard content that flows normally.  
Text line 15: Standard content that flows normally.  
Text line 16: Standard content that flows normally.  
Text line 17: Standard content that flows normally.  
Text line 18: Standard content that flows normally.  
Text line 19: Standard content that flows normally.  
Text line 20: Standard content that flows normally.  
Text line 21: Standard content that flows normally.  
Text line 22: Standard content that flows normally.  
Text line 23: Standard content that flows normally.  
Text line 24: Standard content that flows normally.  
Text line 25: Standard content that flows normally.  
Text line 26: Standard content that flows normally.  
Text line 27: Standard content that flows normally.  
Text line 28: Standard content that flows normally.  
Text line 29: Standard content that flows normally.  
Text line 30: Standard content that flows normally.

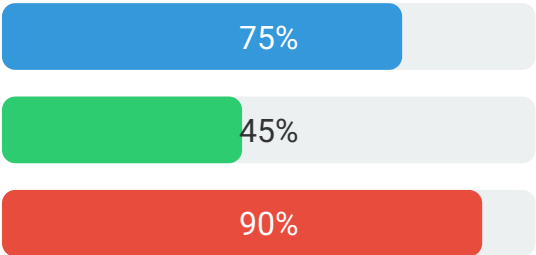

Text line 31: Standard content that flows normally.  
Text line 32: Standard content that flows normally.  
Text line 33: Standard content that flows normally.  
Text line 34: Standard content that flows normally.  
Text line 35: Standard content that flows normally.  
Text line 36: Standard content that flows normally.  
Text line 37: Standard content that flows normally.  
Text line 38: Standard content that flows normally.  
Text line 39: Standard content that flows normally.  
Text line 40: Standard content that flows normally.  
Text line 41: Standard content that flows normally.  
Text line 42: Standard content that flows normally.  
Text line 43: Standard content that flows normally.  
Text line 44: Standard content that flows normally.  
Text line 45: Standard content that flows normally.  
Text line 46: Standard content that flows normally.  
Text line 47: Standard content that flows normally.  
Text line 48: Standard content that flows normally.  
Text line 49: Standard content that flows normally.  
Text line 50: Standard content that flows normally.

## Section 5: Status Indicators

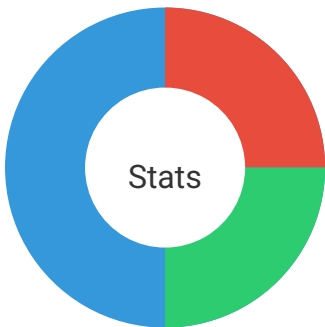

Success, Warning, and Error status indicators shown above.

## Section 6: Progress Bars

## Section 7: Pie Chart

## After SVG Sections

*All SVG elements rendered correctly within the snaking layout.*
